

# Epic Physician Power User Training – Advanced (CLN160)

October 11-13, 2021 | In Person Live Activity | Mark Henkelmann

Jointly provided by the **University of Wisconsin–Madison Interprofessional Continuing Education Partnership (ICEP)** and **Epic**

## Intended Audience and Scope of Practice:

This program is intended for physicians and nurses in specialty and sub-specialty areas using the Epic EMR in their daily practice.

## Statement of Need and Purpose:

The purpose of this training is to demonstrate efficiencies in EMR configuration in order to accommodate patient workflows in specialty and subspecialty areas. Specifically, the course covers advanced database configurations in order to show learners how to personalize the tools they use in documentation, placing orders, and messaging about patient care.

## Elements of Competence:

This CME activity has been designed to change learner competence and focuses on the American Board of Medical Specialties area of systems-based practice and NAM areas of quality improvement and informatics.

## Learning Objectives:

Following this training the participant will be able to:

- Describe how navigators are constructed and how to optimize the navigator for a group.
- Explain the logic used to assign a navigator and how the Workflow Engine rule assigns navigators and controls Epic menus.
- Describe the EpicCare profile and list the top features used.
- Demonstrate the use of report and print groups and use them to create specialty-specific views that consolidate critical patient information on one screen, and how to add custom links to improve workflows.
- Describe some of the advanced SmartForm functions and how to create custom procedure SmartForms
- Explain where and how Documentation Flowsheets be used to capture important clinical data during patient visits and how these flowsheets are built.
