

## LIVE CONFERENCE ACCREDITATION SUMMARY

### **Overview**

Learn about how person-centered can address social determinants of health (SDoHs), including driving practice through data, advocating for policy, interprofessional practices and how to incorporate person-centered practices into care. Attendees will learn from change makers at both the national and local levels, focusing on person-centered perspectives to SDoHs.

This LIVE conference given via webinar is provided by the University of Wisconsin–Madison Interprofessional Continuing Education Partnership (ICEP) and St. Ambrose University, Institute for Person-Centered Care.

### **Statement of Need and Purpose**

Social determinants of health (SDoHs) exist globally. Evidence supports the need to address SDoHs to improve community health and wellness. A paradigm shift in practices are occurring as we move to value-based policies. Person-centered care although not new is not hard wired in practice. By engaging in learning and networking opportunities such as this conference, professionals across sectors will be better prepared to support policy, innovation, and evidence-based practices to improve population's health and wellness.

### **Elements of Competence**

This CE activity has been designed to change learner competence and focuses on the American Board of Medical Specialties' areas of professionalism and systems-based practice, the Institute of Medicine areas of providing patient-centered care and employing evidence-based medicine, and the Interprofessional and Nursing areas of values/ethics for interprofessional practice and interprofessional communication.

## Intended Audience

This conference is designed for physicians, nurses, physician assistants, social workers, health and human services and higher education administration, and those who have interest in person-centered care and social determinants of health.

## Global Learning Objectives

Following this training, learners will be able to:

1. Discuss the current landscape of Person-Centered Care and Social Determinants of Health.
2. Identify person-centered strategies that address health equity including interprofessional ethics and values.
3. Evaluate and apply current research, resources and best practices of PCC related to SDoH to clinical care and educational practices.
4. Compare and contrast different innovations to advance PCC related to SDoH.

## Accreditation Statement

In support of improving patient care, this activity has been planned and implemented by the University of Wisconsin–Madison ICEP and St. Ambrose University Institute for Person-Centered Care.
