SUMMARY BRIEF

Provided by the **University of Wisconsin–Madison Interprofessional Continuing Education Partnership (ICEP)** and **Epic**.

Statement of Need and Purpose

Healthcare is changing quickly with the electronic health record (EHR) matching this rapid pace. Clinical Informaticists need to continually increase their competence and skills to build, modify, and create efficiencies within the EHR, as well as understand the implications of their decisions on clinicians and patient safety. To complete builds and lead the maintenance of an electronic health record, clinical informaticists

need knowledge and competence about of key workflows, language to support key tools, and how to manage the health of a patient population through reports.

The EHR must be designed to support team-based care. Clinical Informaticists need the ability to work effectively among the interprofessional team and be liaisons between information technology and clinical operations. To be effective in in this role and increase clinician satisfaction, Clinical Informaticists need to promote excellent communication among the healthcare team and improve clinical workflows within the EHR.

Elements of Competence

This educational activity is designed to change learner competence in the following areas:

- The American Board of Medical Specialties: Systems-based practice
- National Academy of Medicine/Nursing: Provide patient-centered care and utilize informatics
- Interprofessional Education Collaborative Competencies: Roles/responsibilities, interprofessional communication, and teams and teamwork
- UW ICEP Diversity, Equity, and Inclusion: Value diversity in the clinical encounter

Intended Audience

This program is designed to meet the needs of physician and nurse informaticists, as well as other Clinical Builders who are using EpicCare Ambulatory, EpicCare ASAP and EpicCare Inpatient in their daily practice.

Learning Objectives

Following this training, learners as members of an interprofessional team will be able to:

- Demonstrate skills to improve clinical workflows and increase clinician satisfaction
- Describe strategies to increase effectiveness as a liaison between IT and operations
- Explain the value and evolving role of the clinical informaticist in maximizing communication among members of the interprofessional health care team

Accreditation Statement

In support of improving patient care, this activity has been planned and implemented by the University of Wisconsin–Madison ICEP and Epic. The University of Wisconsin–Madison ICEP is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

Credit Designation Statements

American Medical Association (AMA)

The University of Wisconsin–Madison ICEP designates this live activity for a maximum of **24.25 AMA PRA Category 1 Credit(s)**[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

American Nurses Credentialing Center (ANCC)

The University of Wisconsin–Madison ICEP designates this live activity for a maximum of **24.25 ANCC** contact hours.

Continuing Education Units (CEUs)
