Statement of Need and Purpose

Healthcare is changing quickly with the electronic health record (EHR) matching this rapid pace. Personalization of the EHR can empower Epic End Users. It is important for Clinical Informaticists to have the tools they need to identify and promote clinician efficiencies through personalization of the EHR.

This course builds upon the content in CLN102/102-Focused and exposes learners to numerous tips and tricks of the trade and provides opportunities for application.

Elements of Competence

This CE activity has been designed to change learner competence and focuses on competencies from the:

- National Academy of Medicine/Nursing: Utilize informatics
- Interprofessional Education Collaborative Competencies: Roles/responsibilities
- UW ICEP Diversity, Equity, and Inclusion: Value diversity in the clinical encounter

Intended Audience

This course is intended for Nurse Clinical Informaticists and other clinical informaticists who use Epic's EHR in their daily workflow.

Learning Objectives

Following this course, learners will be able to:

- Describe the purpose and value of empowering Epic End Users
- Identify common ways to personalize the EHR experience for clinicians
- Apply pocket guide tips to case-based scenarios and select appropriate methods to personalize the EHR
