

# Pediatric Nutrition

CONTINUING EDUCATION FOR CLINICIANS

**Free CE/CME activities for  
neonatologists, physicians, pediatric  
nurses, nurse practitioners and  
registered dietitians**

- Infant and toddler nutrition
- Breastfeeding
- Maternal nutrition
- The preterm infant
- Pediatric GI health
- and more

# CURRENT CE/CME ACTIVITIES

## FOOD ALLERGY

*An Overview of Food Allergies in Children*

**Stanley A. Cohen, MD**

Webcast 1.0 CE/CME Credit

*Diagnosing Food Allergies in Infants and Children*

**Jonathan Spergel, MD, PhD**

Webcast 1.0 CE/CME Credit

*Cow's Milk Allergy: Mechanisms, Diagnosis, and Treatment*

**David M. Fleischer, MD, and Carina Venter, PhD, RD**

Webcast 1.0 CE/CME Credit

*Guidelines for Diagnosis and Management of Food Protein-Induced Enterocolitis Syndrome (FPIES)*

**Anna Nowak-Wegrzyn, MD, PhD**

Webcast 1.0 CE/CME Credit

*Eosinophilic Esophagitis: Practical Diagnosis and Management of Pediatric Patients with EoE*

**Mirna Chehade, MD, MPH**

Webcast 1.0 CE/CME Credit

*Optimizing Nutrition in Infants at High Risk for Developing Allergy*

**Tatyana Hofmekler, MD, MSc**

Webcast 1.0 CE/CME Credit

*Clinical Recommendations for Reducing and Preventing Food Allergies*

**Hugh A. Sampson, MD, FAACAAI, and Marion Groetch, MS, RDN**

Webcast 1.0 CE/CME Credit

*Reducing Allergic Manifestations in Children With Cow's Milk Allergy*

**Roberto Berni Canani, MD, PhD**

Webcast

## INFANT NUTRITION

*Nutrition in the First 1,000 Days: Iron*

**Michael K. Georgieff, MD**

Webcast 1.0 CE/CME Credit

*Nutrition in the First 1,000 Days: Vitamin D*

**Carol L. Wagner, MD**

Webcast 1.0 CE/CME Credit

*Nutrition in the First 1,000 Days: DHA*

**Susan E. Carlson, PhD**

Webcast 1.0 CE/CME Credit

*Physiology and Targeted Nutrition in Infants*

**Michael Georgieff, MD, and Camilia Martin, MD, MS**

Webcast 1.5 CE/CME Credit

## MATERNAL NUTRITION

*Maternal Diet, Nutritional Status, and Breast Milk Composition*

**Bo Lönnerdal, PhD**

Webcast

*Choline: An Essential Nutrient for Improving Prenatal Development, Pregnancy Outcomes and Ongoing Health*

**Marie A. Caudill, PhD, RD**

Webcast

## THE PRETERM INFANT

### *Redesigning Postdischarge Nutrition in the NICU*

Tara K. Bastek, MD, MPH, and Ian J. Griffin, MD

Webcast 1.0 CE/CME Credit

### *Customizing Proteins, Fats and Carbs: A Balancing Act in the NICU*

William W. Hay, Jr, MD, and Bethany S. Hodges, MS, RD, CNSC

Webcast 1.0 CE/CME Credit

### *Neonatal Resuscitation: Scientific Basis*

Satyan Lakshminrusimha, MD

Webcast 1.0 CE/CME Credit

### *Should We Try to Save 22 Weekers?*

John D. Lantos, MD

Webcast 1.0 CE/CME Credit

### *State of the Art: Precision Nutrition in Preterm Infants*

Christoph Fusch, MD, PhD

Webcast 1.0 CE/CME Credit

### *Importance of Adequate DHA/ARA in Preterm Infants*

Michael Caplan, MD, and Camilia R. Martin, MD, MS

Webcast 1.0 CE/CME Credit

### *Encephalopathy of Prematurity*

Terrie E. Inder, MD, MBChB

Webcast 1.0 CE/CME Credit

### *Individualized Fortification of Breast Milk for Preterm Infants*

Christoph Fusch, MD, PhD

Webcast 1.0 CE/CME Credit

### *Neonatal Hypoglycemia*

Paul J. Rozance, MD

Webcast 0.5 CE/CME Credit

### *Neonatal Hyperglycemia in the ELBW Infant*

Paul J. Rozance, MD

Webcast 0.5 CE/CME Credit

### *Understanding the Role of Nutrition in Infant Health and Development*

Camilia R. Martin, MD, MS

Webcast

### *Why Nutrition of the Preterm Infant Matters: Long-term Consequences of Adverse Early Nutrition and Growth*

William W. Hay, Jr, MD

Webcast 1.0 CE/CME Credit

### *Nutrition and the Developing Brain*

Michael K. Georgieff, MD

Webcast 1.0 CE/CME Credit

### *IUGR and Macrosomic Phenotypes—How They Develop and Change Over Time*

William W. Hay, Jr, MD

Webcast 1.0 CE/CME Credit

### *Ethical Issues in the NICU: The Importance of Team Education and Preparedness*

Jonathan Fanaroff, MD, JD, FAAP, FCLM

Webcast

### *Protein: Requirements and Measuring Its Impact in the NICU*

Irene E. Olsen, PhD, RD, LDN

Webcast

### *Early Nutrition, Growth and Outcomes—What is the Evidence?*

Brenda Poindexter, MD, MS

Webcast

## THE PRETERM INFANT (continued)

*What's New in the Use of Parenteral Lipids and Fatty Acids in the Nutrition of Low-Birth-Weight Infants?*

Ricardo Uauy, MD, PhD

Webcast

*Vitamin D and the Preterm Infant*

Carol L. Wagner, MD, and Sarah N. Taylor, MD

Webcast

*Examining the Evidence for Human Breast Milk and Fortifiers in Infants*

Jatinder Bhatia, MD, FAAP, and Amy Gates, RD, CSP, LD

Webcast

*Current Concepts in Neonatal Nutrition*

Jatinder Bhatia, MD, FAAP, and Amy Gates, RD, CSP, LD

Webcast

*Nutritional Care Strategies for Optimal Growth and Development in the Preterm Infant*

Tarah Colaizy, MD, MPH

Webcast

*Nutrients and Clinical Strategies: Supporting Growth and Development in the NICU*

Paula Meier, PhD, RN, and Sara Ramel, MD

Webcast

*Influence of Environment and Experience on Brain Development and Outcome in the Preterm Infant*

Terrie E. Inder, MD, MBCHB

Webcast

*Early TPN: Avoid Extrauterine Growth Restriction*

Richard J. Schanler, MD

Webcast

*Novel Approaches to Oral Feeding Readiness Assessment in the Newborn*

Jill L. Maron, MD, MPH

Webcast

*Neurocognitive Development and Feeding Strategies in the NICU:*

*Fortification of Human Milk*

Ekhard E. Ziegler, MD

Webcast

## BREASTFEEDING CONVERSATIONS

*Initiating Breastfeeding Conversations with Mothers and Families*

Caroline Steele, MS, RD, CSP, IBCLC

Webcast 1.0 CE/CME Credit

## NECROTIZING ENTEROCOLITIS (NEC)

*Development of the Preterm Gut*

Michael S. Caplan, MD

Webcast 1.0 CE/CME Credit

*Feeding Strategies to Prevent Necrotizing Enterocolitis (NEC)*

Richard J. Schanler, MD

Webcast

## COMPOSITION OF BREAST MILK

*Applying MFGM and Human Milk Science to Improve Nutrition for Infants and Toddlers*

Rafael Jiménez-Flores, PhD

Webcast

*Innovations That Are Closing the Gap Between Breast Milk and Infant Formula*

Susan E. Carlson, PhD, and Olle Hernell, MD, PhD

Webcast

*Bioactivity of Milk Fat Globule Membranes (MFGMs) and Their Impact on Infant Growth and Development*

Bo Lönnerdal, PhD

Webcast

*Lactoferrin: A Key Nutrient to Support Gut Health in Developing Infants*

Paolo Manzoni, MD, PhD

Webcast

*Bioactive Proteins in Breast Milk*

Bo Lönnerdal, PhD

Webcast

*Components of Human Breast Milk and Their Influence on Short- and Long-term Health*

Bo Lönnerdal, PhD

Webcast

## ADDITIONAL ACTIVITIES

*Understanding the Current Guidelines for Preparing Pediatric and Newborn Feedings in Health Facilities*

Caroline Steele, MS, RD, CSP, IBCLC, FAND

Webcast 1.0 CE/CME Credit

*Motivational Interviewing Skills Development*

Joani Jack, MD, FAAP

Webcast 1.0 CE/CME Credit

*Safeguard Their Tomorrows: A Resource to Help Prevent Infant Abductions*

The National Center for Missing and Exploited Children

Video .75 CE/CME Credits

*Motivational Interviewing to Create Health Behavior Change in Pediatric Patients and Families*

Stephen Pont, MD, MPH, FAAP, and Joani Jack, MD, FAAP

Webcast

*2015 New Neonatal Resuscitation Guidelines*

Myra H. Wyckoff, MD

Webcast

**Pediatric Nutrition**  
CONTINUING EDUCATION FOR CLINICIANS

**PNCE.org is the leading site for continuing education and professional development which focuses on nutritional healthcare for preterm and term infants, toddlers and mothers.**

**With a simple sign up, you can track your course completions, mark courses of interest for future learning, print/download certificates, access additional resources and schedule group viewings with colleagues.**

**Funded through an educational grant from  
Mead Johnson Nutrition**

**ANNENBERG CENTER FOR HEALTH SCIENCES  
AT EISENHOWER**

*Imparting knowledge. Improving patient care.*
