Sarah Brzozowski, PhD, MBA, RN, NEA-BC; Jennifer Hankwitz, MSN, RN**

Provided by the University of Wisconsin–Madison Interprofessional Continuing Education Partnership (ICEP)

Intended Audience:

The primary audience for this educational series is physicians, nurse practitioners, physician assistants, registered nurses, and researchers affiliated with UW Health. Other members of the clinical team will benefit from participation.

Objectives:

As a result of participation in this educational session, learners as members of healthcare or research team, will improve their ability to

1. Describe the role of ambient listening technologies in inpatient nursing practice
2. Differentiate learning health system approaches from mainstream pilot strategies for technology innovation
3. List 3 organizational readiness factors for implementation of innovative AI-assisted technology into patient care
4. Explain considerations for integrating and evaluating ambient listening technology in healthcare

Policy on Disclosure

It is the policy of the University of Wisconsin–Madison Interprofessional Continuing Education Partnership (ICEP) to identify, mitigate and disclose all relevant financial relationships with ineligible companies* held by the speakers/presenters, authors, planners, and other persons who may influence the content of this accredited continuing education (CE). In addition, speakers, presenters, and authors must disclose any planned discussion of unlabeled/unapproved uses of drugs or devices during their presentation. For this accredited continuing education activity, all relevant financial relationships have been mitigated and detailed disclosures are listed below.

** Ineligible companies are those whose primary business is producing, marketing, selling, re-selling, or distributing healthcare products used by or on patients. The ACCME does not consider providers of clinical service directly to patients to be ineligible companies.*
